Career Objective

As a diligent undergraduate B. Tech student in CSE, I am looking forward to being associated with an esteemed organization where I can escalate my technical and communicational skills through perseverance and dynamic involvement with work.

Professional Experience

WEB DEVELOPER - INTERN

June 2023 - July 2023

Created a upgrade website for the interior designs and ideas with internship name IWMS-Web Development while working as an intern web developer. Worked on the frontend(HTML, CSS, JavaScript, PHP) to design static web pages and connecting the database with a team of 3 people.

Projects

Movie Ticket Booking system, *Software Engineering*

Developed a user-friendly Movie Ticket Booking System enabling seamless online ticket purchases, seat selection, and secure transactions. Implemented responsive design and real-time functionalities for an enhanced user experience.

Alumni Database, *Database Management System*

Developed an Alumni Database Management System, enabling efficient organization and maintenance of graduate records. Implemented user-friendly interfaces for administrators to manage alumni data, facilitate communications, and track engagement. Integrated features allowing graduates to update profiles, connect with peers, and access exclusive resources. Prioritized data security and scalability.
